

PRESS RELEASE

Community Open Days for Lochluichart Extension II

Friday 22nd September 2017

After an initial feasibility review and on-site environmental assessments, the possibilities for an extension to the operational wind farm are beginning to take shape. Now that we've submitted Scoping to get formal feedback from statutory consultees in the planning process, Infinergy would like your input!

To ensure the local community is fully consulted on the plans, we will be hosting an initial round of Community Open Days to have a look at and discuss proposals with the team.

We'll be sending out a newsletter to all local households which will give all the details of the open days which will be held in Garve and Achnasheen on:

Tuesday 3rd October, 2-7pm, Garve Village Hall

Wednesday 4th October, 2-7pm, Achnasheen Village Hall

- ENDS-

NOTES FOR THE EDITOR

PRESS RELEASE

Second Round of Open Days for Lochluichart Wind Farm Extension II

Friday 23rd March 2018

The Environmental Impact Assessment surveys are now all complete and are being collated to form an Environmental Statement to support a new planning application to The Highland Council. Before this is submitted, in order to ensure the local community is fully consulted on the plans, we would like to invite you to our Community Open Day to have a look at and discuss our proposals with the team.

Following the last round of open days and discussion with the Garve and District Community Council, we are going to have one open day in Garve Village Hall on **Tuesday 3rd April between 2pm and 7pm** (when the Community Council meeting will start). The panels will be left in the hall during the CC meeting, as they were previously, in order to allow those who are only able to attend the CC meeting a chance to view them. They will also be uploaded onto this website in the Downloads section following the open day.

For further information please email info@lxxwindfarm.co.uk
